- Conducted Inter school chess competition, math quizzes, cross country and math relay.
- Organized a VR and planetarium showcasing the universe session for entire school of 1200 students.

LANGUAGES

Nepali • English • Hindi

PROJECTS

Machine Learning Model for Nepali Character Classification

09/2024 – present
ML Model that correctly classifies the 46 nepali characters, trained using 92000 images

Document Scanner
OpenCV project that scans document and produces a scanned image

Tic Tac Toe Game
Multiplayer and AI versions of Tic Tac Toe game using minmax algorithm and pygame, Built using pygame

Space Shooter game
Simple space shooter game with endless rounds using pygame

Snake Game
Simple snake game using pygame

Pong Game
Singleplayer game using pygame

SKILLS

Programming
Python, C, SQL, Git, Docker,(Libraries Including Pygame, Numpy, Pandas, Matplotlib, OpenCV…)

Linux and Shell Scripting
Shell Script - Bash(UNIX Shell), Extract Transform and Load(ETL)

Cybersecurity
Frameworks including NIST and Ethics, TCP/IP

COURSES AND CERTIFICATIONS

Python with everybody(I / II)
Coursera
- Basic python syntax and concepts including control flow and iteration, data structures lincluding list, tuples and dictionaries.

Google Cyber Security Professional Certificate(I / II)
Coursera
- Cybersecurity tools, SQl, Types of cyberattacks, cysbesecurity ethics, Managing Risk and vulnerabilities, CISSp security domains, NIST Framework, SIEM and SOAR Tools

Hands on Introduction to Linux Command and Shell Scripting
Coursera
- Fucntioning of Linux System, Basic Linux command, Shell scrpting,
- Built an automated system to access and back up encrypted password files on core servers, reducing human error and enhancing security.
